NGA BUSINESS OPPORTUNITY

Notice of Intent to Purchase Global Mapper Licenses

The National Geospatial Intelligence Agency intends to purchase 48 Global Mapper licenses through a sole source firm fixed price purchase order to Blue Marble Geographics. They are the only authorized re-seller of these licenses. Delivery is anticipated to be within 30 days of award, the maintenance will be for a one-year period from 15 September 2012 to 14 September 2013.

Brand Name Justification: The Global Mapper software is a Geographic Information System (GIS) management tool that satisfies a number of spatial processing requirements that NGA's Remote Replication System (RRS) depends on to satisfy the National-Geospatial Intelligence mission. The RRS is a suite of software tools (Global Mapper is just one of those tools) that have been tightly integrated and at this time.

Expiration date: 17 August 2012
